Profile

I'm an experienced Product Designer with a background in both design studio and high-tech product company. I focus on creating visually, intuitive, and functional designs that enhance user experience. I enjoy working with cross-functional teams and using my communication skills to help create products that address user needs and support business goals. I'm vegetarian, Love running, coffee and listening to podcasts ;)

Employment	
Nov 2019 – Apr 2023 (Includes maternity leave)	Product Designer at Via transportation As a Product Designer at Via Transportation, I was responsible for designing and improving core pages of the operator-facing platform (Hub, map editor) identifying pain points and delivering design solutions that streamlined workflows and increased operational efficiency.
June 2016 - Jan 2018	UX/UI Designer at Zemingo Design studio At Zemingo I worked on multiple mobile projects for various clients, creating visual identities, logos, user journeys, interfaces and client presentations, communicating design concepts and project goals.
